

Central Shockwave Therapy Clinic

12 Park Road
Coventry, Warwickshire CV1 2LD
United Kingdom

Phone: 2476222002

Focused shockwave therapy is a non-surgical and non-invasive treatment that utilises acoustic waves to stimulate a healing response in the patient's body. It is effective in treating various musculoskeletal conditions. Our skilled clinicians have been assisting patients in Coventry & Warwickshire for several years. We provide a reliable and secure alternative to surgery, ensuring a speedy recovery. At our core, we place utmost importance on patient care and firmly believe that treatment should be affordable and available to all in need. That is why our costs are consistently among the lowest in the UK.
